5. Participating in an Online Auction

To Bid on an Auction, you must be **Logged IN**. Once your account is active you are free to bid on any of our active online auctions. These can be found on the **Home Page** under the **Auction** heading.

When it comes to bidding you have two choices, you can select the **Bid** button and place a bid or you can choose to set a **Max Bid** and select the highest amount you want to bid from the drop down menu. If you choose to set a max bid then bids will be placed for you as others bid, this will continue until the current bid exceeds the max bid you set, at which time you can choose to increase your max bid or until the auction has ended. All bidding increments are solely at the discretion of LandMarketers.com

Note: There has to be at least a 4 minute time lapse between bids at the conclusion of the online auction.

Example: If you or any other bidder places a bid with 30 seconds remaining in the auction, the time clock will automatically start over at 4 minutes. This process will apply until the bidding has been inactive for 4 minutes.

6. Winning Bidder

The Winning bidder of the auction will be contacted by a Land Marketers Realty Agent to execute all of the proper disclosures and purchase agreements and make arrangements to collect any required earnest deposits to move forward with the transaction.
